### **Color Mixing**

Color mixing is crucial for capturing the varied skin tones and hues in aquarelle portraits. By experimenting with different combinations of transparent watercolors, artists can create a wide range of colors and undertones.

### **Brushwork**

The choice of brush and the manner in which it is used have a significant impact on the outcome of an aquarelle portrait. Soft brushes can create delicate washes, while firmer brushes can create more defined strokes. Varying the pressure and direction of brushstrokes can bring depth and texture to the portrait.
