### Mechanics of the Invisible Deck

The Invisible Deck relies on a combination of clever design and expert manipulation. The deck consists of 52 specially designed cards, each with a thin, transparent plastic frame. The cards are arranged in a specific order, with the frames overlapping each other to create the illusion of a solid deck.

When the magician holds the deck face down, the transparent frames align perfectly, making the cards appear invisible. By slightly manipulating the deck, the magician can create the illusion of the cards vanishing or appearing at will.
